

DhwarkeshVidhyashram School, Kanchipuram

(Session 2017-18)

Robotics Workshop –Ornithopter workshop (Certified by OrnithopterZone , USA) for grade/class III to VIII students.

Dear Parent,

Good Day.

We are pleased to inform you that we are going to organise Ornithopterworkshop in our school on 23-24 April 2018 / 10.00 AM – 02.00 PM at our school campus itself. The two expert Ornithopter workshop trainers will come from Bangalore and train our students.

The Ornithopter workshop workshop fee is 1000/- INR (Rupees One thousand Only).

What is this workshop about?

An Ornithopter (from Greek Ornithos "bird" and Petron "wing"), a bio-mimicry of birds, bats and insects, is an aircraft that flies by using the same mechanism as birds: flapping its wings instead of using engines for propulsion like most of the modern day aerodynamic models.

Course Outcomes

- Certification from Ornithopter Zone, USA
- Build and test your own rubber-powered Ornithopter.
- Understand the principles of Flight of a bird.
- Design a mechanism that imitates a Bird
- Competition for Longest Flight

Certification

All AeroTriX certificates have a unique ID which can be verified online for authentic

Certificate of Completion

Certificate of Completion with Distinction (for top performers)
